

What is it that makes dining at No Menu so special?

Well, we work a little differently to other restaurants. As you might have guessed by our name, we have no menu!

Our daily menu changes every day of the week, depending on what our talented (and creative!) chefs find fresh at the markets each morning.

You can see today's menu at [www.today.nomenu.net.au](http://www.today.nomenu.net.au)
